

"Our customers tell us Sanatogen has worked wonders in helping their nerves"

YOUR druggist knows what have been the experiences of his patrons who have taken Sanatogen to rebuild their nerves—broken down through illness, overwork or worry.

And because he does know personally of the truly remarkable results achieved through its use in nervous exhaustion and allied conditions—he is able conscientiously to recommend it to YOU. If YOUR nerves are tired out and debilitated—if digestion has failed you—if sleep is restless—strength and ambition waning—perhaps YOU, too, will be able to find the way back to health and strength through the benificent help of Sanatogen.

Over 16,000 physicians have recorded, in writing, their confidence in the power of Sanatogen to rebuild and renew the health and strength of the nerves. Its easily digested combination of purest protein and organic phosphorus provides just the food the nerves need—and in a form that does not impose any strain upon the stomach or cause harmful stimulation. Sanatogen is just pure nerve food—reaching the nerve cells—endowing them with vigor and vitality and enabling other bodily functions to perform their work naturally and without strain.

When your druggist recommends Sanatogen for your nerves—you know that his opinion has the authority of 16,000 physicians endorsements behind it.

Write for a Free Copy of "Nerve Health Required."

We ask you earnestly to get acquainted with Sanatogen. Investigate our claims, see if you like—and we are only too glad to have you do so. We offer you a free copy of our book, "Sanatogen—The Miracle Remedy," containing an absolutely fascinating narrative, beautifully illustrated and containing facts and information of vital interest to you. This book also contains evidence of the value of Sanatogen which is so remarkable that it is conclusive.

Sanatogen is sold in three sizes: \$1.00, \$1.50, \$3.50

Get Sanatogen from your druggist—if not obtainable from him, send after receipt of price.

THE BAUER CHEMICAL CO., 251 Irving Pl., New York

ROUBLE FACED BY OIL MEN

and to report at a meeting Saturday in Bakersfield.

A grave question was before the meeting, that of shutting down the properties until a satisfactory price was obtained. Spalding of Los Angeles has already closed down two of the properties in the Midway in which he is interested, the Mascot and the Croesus, and declares he will not resume operations until a better price is obtained.

The oilmen agree that 30 cents is no price for oil, and that at 50 cents a barrel fuel oil is still cheap enough.

Some of the companies cannot produce at a profit by selling at 30 cents.

What action is to be taken will be determined at the next meeting after the committee has interviewed the different marketing companies.

The matter of a shut-down is a very serious one. About thirty or forty companies would be affected, and this would mean the throwing out of employment of several hundred workers.

Then again, the companies are operating under leases of different natures. Some of the terms make

drilling and producing compulsory; some companies have to produce to keep the water from flooding the oil strata, and some are not financially able to shut down. All of these phases must be considered and the committee will go into the matter thoroughly before making any recommendations.

BUSINESS ITEMS

Stocks in New York yesterday were affected by the expectation of United States supreme court decisions in cases dealing with trusts. The market was dull in the morning and irregular in the afternoon, it having been announced at midday that the supreme court would adjourn for a fortnight after that day's session, and trading was at a standstill in the closing hour.

Closing prices in San Francisco yesterday were as follows: Hawaiian Commercial, 40 asked; Hawaiian Sugar, 37 bid, 39 asked; Honokai, 10 bid; Hutchinson, 19.50 asked; Kilauea, 12 bid; Onomea, 34 bid, 34.50 asked; Paauhau, 20.50 asked; Unlisted: Honolulu Plantation, 32.50 bid—50 sold at 34.

It has been decided in Washington that Hawaiian bonds will be accepted as security for postal deposits at their market value, not to exceed par value.

Raw sugar was steady in New York yesterday, and 96 cent, centrifugal, still at 4.05. Refined quiet.

But if you come to our store, we are sure you will find D.D.D. will do for you what we offer you a full size bottle on this guarantee—if you do not find that it takes away the itch AT ONCE, it costs you not a cent.

Why Salves Can't Cure Eczema

Since the old fashioned theory of eczema troubles has been given up by scientists, many different salves have been tried for skin diseases. It has been found that these salves do not penetrate the skin, but lie along the surface and do not penetrate to the skin below the epidermis where the eczema germs are lodged.

This—the quality of penetrating—probably explains the tremendous success of D.D.D. Prescription—oil of wintergreen, thymol, glycerine, etc., as commanded in D.D.D. prescription.

BENSON, SMITH & CO., LTD.

PLAIN WORDS AT MEETING ON EUGENICS

Rev. Robert E. Smith Declares Pulpit Has Been Too Prudish in Policy

"The pulpit has been too prudish in its treatment of these subjects. The state should make it mandatory for every couple seeking marriage to present to the officiating clergyman a clean bill of physical and mental health signed by a reputable physician."

Such was the declaration of Rev. Robert E. Smith, pastor of the Methodist church, before the men and women who crowded Cooke Hall, Y. M. C. A. building, last night at the conference on eugenics.

Called by Ulrich Thompson of Kamehameha schools, the conference gathered together scores of prominent educators, clergymen, business men, and others interested in charitable, benevolent or settlement work in this city. It was a decidedly earnest gathering, and the spirit of energy to take up problems of race betterment was reflected in the score of papers read by their authors. The papers were five minutes long, and at the conclusion of the program Judge Sanford B. Dole, who presided, complimented the authors on the fact that each paper in so brief a time had said something and said something constructive.

Action was taken by those at the meeting to begin a campaign of public education on the subject of race-culture. Judge Dole, on suggestion of Mr. Thompson afterward put in the form of a motion, named Dr. W. D. Hooby as chairman of a committee of five to receive papers and to arrange for material that can be used from the pulpit, through the press and in other ways of public communication.

Mr. Thompson opened the meeting after a few introductory remarks by Judge Dole, with a paper emphasizing the importance of eugenics in helping solve the problem of staying race degeneracy and furthering race-culture—a problem which he termed "The National Problem." The other papers followed in rapid succession. Eugenics from widely varying standpoints, as well as statements of the local conditions and the necessity for action, were submitted by the following:

Rev. Dr. Doremus Souther, Rev. W. D. Westervelt, Miss Frances Gould, Spencer Bowen, Mrs. Walter F. Frear, Riley H. Allen, Rev. J. P. Erdman, Miss Esther Erickson, President A. F. Griffiths, Miss Abby S. Marsh, Gilbert J. Waller, Rev. Robert E. Smith, Rev. Alauko Akana, Principal Percy L. Horne, Paul Super, Stephen Myrick, R. O. Matheson, W. A. Bryan, and James A. Rath.

STOCKS GOING OVER A PALI

Sugar stocks are cascading. Prices are not merely down but falling off in slabs. A month ago, depressed as the market was then, prediction that Waialua would go to par this year would have been ridiculous. Par was struck yesterday by Waialua, and today it is one and a half points below. Oahu, active two days ago at 25, fell off a quarter yesterday, and today is down an additional three-quarters. McBryde and Oahu, which long ago shared the bloom of their gain in the boom of some months ago, each show a loss of half a point, and it is a moot question how near these stocks will go to the edge of being given away.

Other than sugar are apparently not affected much by the depression in them—perhaps they are the gainers thereby. Telephone shows an advance of one and a half points. I'm people

is weaker than at last sale. Other industrials and transportation stocks are held at last sale quotations or higher. Bonds of the two water companies are active at premiums, a value of \$30,000 in them changing hands today.

Sales listed today are as follows: Mutual Telephone, 50, 50 and 100 at 27.75; Oahu Sugar, 24 at 24.75; 10 at 24.25, 25 and 50 at 24; McBryde, 89 and 20 at 5; Oia, 30 at 5; Waialua, 10 and 5 at 98.50; Hawaiian Irrigation, sixes, three lots of \$5000 each at 101; Hawaiian Ditch Co., sixes, \$15,000 at 103.

The English steamship Dunholm, with 25,000 barrels of gasoline recently blew up while tied to pier No. 3 in New York harbor, swooped down to the surface of the water and rescued a drowning man who had fallen from a rowboat.
